

“ The adventure that I had embarked upon in my fight against cancer was a terrifying one to be sure, but it was an adventure nonetheless. I fully intended to relish every moment of it. ”

TRADE REVIEWS

Cancer memoirs are frequent these days, and those with happy endings are most welcome. Most make good stories, and many are well written. These statements are both true for *My Angels Are Come...* heart-warming and reaffirming.

Deborah Straw
US Review of Books

Highly recommended for community library memoir collections.

James A. Cox
Midwest Book Review

WHAT READERS SAY

I just want to say thank you, thank you, thank you for your book, it's awesome... Makes you cry, makes you laugh. It's just fabulous.

— Edda Taylor

I couldn't put the book down – read it all the way through. It was just amazing. You could actually see the people. It was just so personal. It is really, really a very good book. Very VERY well written, and holds your interest... you just want to keep seeing what's going on... a super job.

— Barb Kracher

It's so neat, it's like you're right there, right next to him when everything happens. I started reading and right away it was six chapters later, and I still didn't want to put it down. And I'm not usually a reader.

— Brett S.

I enjoyed the book very much and couldn't wait to read more... finished it the first week. I already miss the people at the Center and the give-and-take of the author and the doctors.

— Ruth

In addition to its being a story of his journey with cancer, his analysis and confrontation of an institution that can cause immense individual harm and leave one feeling powerless and vulnerable inspired me to hopefully act as courageously in similar situations.... Please thank him for us for his generosity in sharing this story.

— Patty McConnell

Your book not only represents your winning battle with cancer... but also a new found need and ability to share your experiences with others. It IS very personal. Having gone through chemo and radiation for breast cancer, I recognize more than ever the impact a cancer diagnosis can have on life views. I also know how wonderfully important those angels who deliver treatment are to healing.

— Joan R.

I finished reading your book today... cover to cover. Just wanted to let you know how good it was. It was *very personal*. And very well done. You did a great job. Thank you!

— Sherry
